Representatives\* of the "International Independent Commission on the death of Oury Jalloh" presenting new and incriminating investigation results in the case of Oury Jalloh.

**2. Presentation of the results of the International Analysis and Strategy Conference on self-organization against racist Police violence and reasons of state in Germany and Europe (26.-27.10.19 Berlin)**

Racist and often fatal attacks by the police in the FRG, but also throughout Europe are recently on the rise again. On the part of the state, such crimes remain regularly unsolved and the perpetrators\* largely unpunished.

For the first time in the history of Europe and within the framework of our conference friends and relatives of (death) victims of racist (police) violence across Europe as well as initiatives and groups will meet together, some of which have been campaigning for many years for enlightenment, truth, and justice in such cases.

On the basis of comparative analyses of government action and our own experiences we discuss our civil society strategies within an international context.

The results of our transnational analyses will be presented at the press conference together with representatives\* from Great Britain, France and other countries.

We cordially invite you and your colleagues\* to the press conference.
